Seeking the position of a Full Stack Developer to further enhance organizational worth owing to my knowledge in HTML, CSS, Node.js, GitHub, JavaScript, Ajax, REACT.js, JSON and JQuery.

Technical Skills: I have used most technologies in respect to full stack development. I excel with Javascript, REACT.js, Node.js and MongoDB. Extensive Web Design with Microsoft Visual Studio, Adobe CC Suite, HTML, CSS, Java, Node.js, GIT, AJAX, Firebase, MongoDB, MySQL, REACT.js and able to adapt to new full stack web technologies. Experience with software development in C#, .NET, and database development. Ability to learn any new software systems very quickly.

Experience:
January 2015 – Current **MAXON Computer Software** (Cinema4D)
Educated teachers and professors on methods of teaching Cinema 4D
Managed education material, license servers and latest versions for schools in North/South America
Support for deploying Cinema4D in any environment
Manage render servers on AWS, multiple cloud services and private configurations

June 2011 – December 2014 **Jones Trading** (Wall Street Trading Company)
Managed 3 IT Support Employees
Manage communication and prioritization of projects with multiple departments with high dollar value
Liaison to Software Database Employees
Create custom computer software setup for each Wall Street Trader for their individual needs
Server and Network support and backups, Exchange Server (Email), phone system support
Deploy Software Application and Operating System updates to over 200 computers and 300 IP Phones
Real-time tech support of problems across multiple complex trading software systems and platforms for very demanding Wall Street Traders

March 2011–June 2011 **Sage Publishing** (Educational Software, CDs and Books)
Website Development and final testing before all website updates

January 2002 – Current **TurnerWebDev**
Consulting for computer Hardware, Software and Network maintenance, Full Stack Web Development, web design, video design, directing and editing and photography with great feedback from customers

January 2009 - February 2011 **Change for Care** (Community Charitable Donation Company)
Developed efficient mapping system for charitable donation pick-up from Santa Barbara to Santa Monica

January 2008 – December 2008 **Shock Club Volleyball** Coach/Trainer
Coached 16-year-old team that went to the 2008 Chicago Junior Olympics
Other responsibilities included physical training and rehabilitation with sports injuries

January 2007 – December 2007 **Vons** Market
Courtesy clerk, customer service, bagged groceries, gathered shopping carts, help customers find items

January 2002 – December 2007 **WV Communications** (Military Defense Company)
Computer hardware, software and network systems. Circuit board production, Accounts Payable, Receiving and payroll. Microsoft Word, Excel

Education:
UCLA Extension Program
Coding Boot Camp Certificate - November 2018
Keeping myself current on the latest full stack technologies which were covered extensively at UCLA Extension

Moorpark Community College
Completed general education - June 2008
Great experience of higher education from Moorpark Community College.

Westlake High School
Diploma - June 2006
Attended the WIT (Westlake Information Technology) Academy integrated with the high school. The program introduced us to front end development and visual basic in 10th grade. I also learned about video editing, graphic design and Microsoft Access.
